EDUCATION

Vellore Institute of Technology

B.Tech. Computer Science and Engineering (Health Informatics) - CGPA: 8.71

Bhopal, India

2023 - 2027

EXPERIENCE

Software Development Intern

November 2025 - January 2026

Eazotel

- Developed production-grade communication and analytics integrations for a multi-client SaaS hospitality platform using Node.js, Express.js, MongoDB, Meta WhatsApp Cloud API, Exotel, and Google Ads APIs.
- Designed and implemented a scalable multi-tenant backend architecture featuring secure webhooks, Meta OAuth onboarding, provider abstraction, and database-driven credential management for hotel-specific WhatsApp Business accounts.
- Developed backend workflows for automated lead engagement, message tracking, delivery callbacks, and CRM synchronization, supporting 100+ automated customer messages and calls daily for multiple hotel clients.

PROJECTS

VyaaparBill | Node.js, Express.js, MongoDB, FastAPI, Gemini API, OCR, JWT

[Live](#) | [GitHub](#)

- Built and deployed a business management platform for inventory, suppliers, customers, purchases, and sales using Node.js, Express.js, and MongoDB, with JWT authentication and multi-user data isolation.
- Engineered transaction-safe sales and purchase workflows with atomic stock updates, backend-controlled financial calculations, and duplicate invoice protection to ensure data integrity.
- Designed an AI-powered invoice processing microservice using FastAPI, PyMuPDF, Tesseract OCR, and Gemini API to extract structured data from GST invoice PDFs and automate inventory updates, alongside GST-compliant PDF invoice generation.

Ticketify | Node.js, Express.js, MongoDB, JWT, Socket.IO

[Live](#) | [GitHub](#)

- Built a role-based event ticketing platform enabling event creation, ticket booking, and organizer-driven ticket verification.
- Designed and implemented secure RESTful APIs for authentication, event management, and ticket booking using Node.js, Express.js, MongoDB, JWT, and role-based access control (RBAC).
- Implemented QR-based ticket validation and real-time seat-availability updates (Socket.IO) preventing double-booking under concurrent ticket purchases; deployed using Vercel, Render, and MongoDB Atlas.

POSITIONS OF RESPONSIBILITY

Technical Team - Core Member

November 2024 - May 2026

Microsoft Technical Club

- Co-organized CodeGaruda 2025 with 600+ registrations and 30% YoY engagement growth; led 5+ technical workshops and competitive hackathons for 1,000+ students.

Web Development Team - Core Member

August 2025 - December 2025

TEDx VIT Bhopal

- Led backend development of the club website by designing RESTful APIs with Node.js, Express.js, and MongoDB, enabling seamless management of 500+ event registrations.

TECHNICAL SKILLS

Languages: C++, JavaScript

Technologies: Node.js, Express.js, MongoDB, SQL, HTML, CSS

Concepts/Protocols: REST APIs, Socket.IO, Webhooks, JWT, OAuth

Developer Tools: Git, GitHub, Postman, Vercel, Render, VS Code, Cursor, Jupyter Notebook

ACHIEVEMENTS

- National Finalist (Top 20 Teams Nationwide), BrAINWARS 2026 Case Study Competition organized by Bain Capability Network. May 2026
- Selected among 10 coordinators from 500+ applicants for the Blue Yonder campus placement drive. Oct 2024
- Semi-Finalist, Health Hackathon co-hosted by Johns Hopkins University and VIT Bhopal. Feb 2025
- Led team to 3rd place in Division 22 of the International Collegiate Chess League. Apr 2025
- Two-time State Level Bronze Medalist, 400m Sprint and 4×100m Relay, UP State Athletic Meet. Jan 2020
