EDUCATION

Vellore Institute of Technology

B.Tech. Computer Science and Engineering (Health Informatics) - CGPA: 8.71

Bhopal, India

2023 - 2027

EXPERIENCE

Software Development Intern

November 2025 - January 2026

Eazotel

- Developed production-grade communication and analytics integrations for a multi-client SaaS hospitality platform using Node.js, Express.js, MongoDB, Meta WhatsApp Cloud API, Exotel, and Google Ads APIs.
- Designed and implemented a scalable multi-tenant backend architecture featuring secure webhooks, Meta OAuth onboarding, provider abstraction, and database-driven credential management for hotel-specific WhatsApp Business accounts.
- Developed backend workflows for automated lead engagement, message tracking, delivery callbacks, and CRM synchronization, supporting 100+ automated customer messages and calls daily for multiple hotel clients.

Web Development Team Core Member

August 2025 - December 2025

TEDx VIT Bhopal

- Led backend development of the club website by designing RESTful APIs with Node.js, Express.js, and MongoDB, enabling seamless management of 500+ event registrations.

Core Technical Team Member

November 2024 - May 2026

Microsoft Technical Club

- Co-organized CodeGaruda 2025, resulting in 600+ registrations and 30% higher engagement, while leading 5+ workshops and hackathons impacting 1,000+ students.

PROJECTS

VyaaparBill | Node.js, Express.js, MongoDB, Python, PyMuPDF, Tesseract OCR, JWT, LLMs

[GitHub](#)

- Built a modular business management platform with JWT-based authentication, inventory, supplier, customer, purchase, and sales modules, following a scalable RESTful backend architecture using Node.js, Express.js, and MongoDB.
- Engineered automated inventory workflows where purchase and sales transactions synchronize stock levels in real time using MongoDB document relationships, business logic, and secure role-based APIs.
- Designed an AI-powered invoice processing pipeline using Python, PyMuPDF, Tesseract OCR, and LLMs to extract structured data from GST invoices and automate inventory updates, significantly reducing manual data entry.

Ticketify | Node.js, Express.js, MongoDB, JWT, Socket.IO

[Live](#) | [GitHub](#)

- Built a role-based event ticketing platform enabling event creation, ticket booking, and organizer-driven ticket verification.
- Designed and implemented secure RESTful APIs for authentication, event management, and ticket booking using Node.js, Express.js, MongoDB, JWT, and role-based access control (RBAC).
- Implemented QR code-based ticket validation, ownership-based authorization, and real-time seat availability updates with Socket.IO; deployed using Vercel, Render, and MongoDB Atlas.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python

Technologies: Node.js, Express.js, MongoDB, SQL, REST APIs, Webhooks, JWT, OAuth, HTML, CSS

Developer Tools: Git, GitHub, Postman, Vercel, VS Code, Cursor, Jupyter Notebook

Core Coursework: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems

ACHIEVEMENTS

- National Finalist (Top 20 Teams Nationwide), BrAINWARS 2026 Case Study Competition organized by Bain Capability Network. May 2026
- Selected among 10 coordinators from 500+ applicants for the Blue Yonder campus placement drive. Oct 2024
- Semi-Finalist, Health Hackathon co-hosted by Johns Hopkins University and VIT Bhopal. Feb 2025
- Led team to 3rd place in Division 22 of the International Collegiate Chess League. Apr 2025
- State Level Bronze Medalist, 400m Sprint, UP State Athletic Meet. Dec 2019
