EDUCATION

Vellore Institute of Technology

B.Tech. Computer Science and Engineering (Health Informatics)

Bhopal, India

2023 - 2027

EXPERIENCE

Web Development Intern

July 2025 - September 2025

Prime HR Consultants

Remote

- Leading full-stack development of the firm's official recruitment platform, using React for a dynamic frontend and Node.JS with Express for a scalable backend.
- Designed and implemented a responsive UI/UX with React, HTML, and CSS, enabling seamless candidate registration and job-matching, projected to serve 500+ job seekers and partner companies.
- Proposing and implementing advanced features, including real-time job alerts, employer dashboards, and analytics modules, driving higher engagement and operational efficiency.

Core Technical Team Member

November 2024 - Present

Microsoft Technical Club

Bhopal

- Co-organized and executed CodeGaruda 2025, the club's flagship annual technical event, driving over 600 registrations, 500 active participants, and achieving a 30% increase in engagement over the previous year.
- Spearheaded 5+ technical workshops and hackathons, delivering hands-on coding sessions and enabling practical skill development for 1,000+ university students across diverse technical domains.

PROJECTS

VitaLink | JavaScript, Node.JS, MongoDB, Python

[Live](#) | [GitHub](#)

- Developed a unified platform to streamline pharmaceutical supply chain operations, addressing key logistical challenges.
- Built a responsive frontend using HTML, CSS, and JavaScript, delivering an intuitive user interface for improved stakeholder engagement.
- Implemented a scalable backend with Node.js and Python, utilizing RESTful APIs for real-time data processing and MongoDB for secure data storage.

Ticketify | HTML, CSS, JavaScript, Node.JS, Express

[Live](#) | [GitHub](#)

- Built a full-stack web application for digital pass generation and management.
- Designed RESTful APIs with Node.js and Express, and utilized MongoDB for secure data handling and storage.

Heart Disease Prediction System | Python, Flask, Machine Learning

[Live](#) | [GitHub](#)

- Developed a Logistic Regression model on the UCI Heart Disease dataset to predict risk with strong accuracy.
- Integrated the trained model into a Flask web application with interactive UI for real-time predictions.

TECHNICAL SKILLS

Languages: C++, JavaScript, Python, HTML

Technologies: CSS, ReactJS, Node.JS, Express.JS, SQL

Tools: Git, GitHub, V.S.Code, Jupyter Notebook

Coursework: Data Structures, Object-Oriented Programming, DBMS, Operating Systems

Soft Skills: Problem Solving, Leadership, Time Management, Adaptability

ACHIEVEMENTS

Campus Placement Drive Coordinator (Blue Yonder)

October 2024

- Selected as one of 10 coordinators from 500+ applicants for Blue Yonder's on-campus placement process.

Health Hackathon (Co-hosted by Johns Hopkins University, USA)

February 2025

- Qualified for the **Semi-Finals** in a competitive hackathon focused on health solutions.

International Collegiate Chess League

April 2025

- Led team to **Third Position** in Division 22, showcasing leadership and strategic thinking.

State Level Bronze Medalist (UP State Athletic Meet)

December 2019

- Achieved **Third Position** in the 400m sprint, showcasing discipline and athletic prowess.

CERTIFICATIONS

Postman API Fundamentals Student Expert — Postman

July 2025

Gained hands-on expertise in Postman, including creating, testing, and documenting APIs, streamlining backend-frontend integration and improving development workflows.
